Section Header:

 The World Map, Rewired

Body Copy:

Crime doesn't happen in isolation. It moves — across oceans, through borders, under radars. Our interactive map reveals how global organised crime really works: supply chains, smuggling routes, ports, cities, and the cartels that connect them.

At launch, explore dossiers on:

- Antwerp & Rotterdam – Europe's cocaine superhighways
- Dublin → Dubai – The Kinahan Cartel's global reach
- Mexico → US – The fentanyl flood
- The Darién Gap – The deadliest smuggling corridor
- Hong Kong – Shadow finance hub
- West Africa – A new crossroads for cocaine, gold, and guns

Every hotspot opens a story. Every story reveals a system.

 Global Organised Crime in 2025: The Hidden Empire

Body Copy (teaser version):

Organised crime has always adapted. The Sicilian dons gave way to Colombian cartels. Smugglers became bankers. Street gangs became multinational networks.

In 2025, crime is no longer underground. It's everywhere: embedded in ports, crypto exchanges, supply chains, even sports arenas. What used to be local is now global.

This longform report ties the threads together: who the key players are, how they operate, and why their reach is deeper than ever.
